

Disclosure of executive pay

The Academies Financial Handbook 2020 requires Academies to publish on their websites the number of employees whose benefits exceed £100,000 in bands of £10,000. Benefits for this purpose do not include the Academy's contributions to any pension scheme.

In the year ended 31 August 2020, one Hammersmith Academy employee received benefits which fell between £120,000 and £130,000. No other employees had benefits in excess of £100,000.

Further disclosures relating to higher-paid staff of the Academy can be found in the Annual report and financial statements, which can also be downloaded from the Academy's website.
